Intensive English Programs (ELPI) 2024 - 2025

"A tonne of aspects of the ELPI program helped strengthen my English skills. Among them, especially, to meet

many people from various countries helped improve my English skills the most. If it were not for them, I would not be the person I am today. Thanks to them, I could try to speak English more and improve my English. In addition, I could take classes that were suitable for me. Before the classes started, we took placement tests, so I learned English a lot without worry in the classes."
